Project MyFuture

Scene Flow Guide

For stakeholders · ASU undergraduate admissions experience

The big idea

This is a scroll-driven admissions story, not a traditional website. Students move through cinematic chapters and make three choices that personalize what they see:

- Interest — what pulls them in
- Learning style — how they learn best
- Campus — where they see themselves

Those choices shape headlines, stats, programs, imagery, and links for the rest of the journey.

One-line flow

Inspire !’ choose your path !’ show your future !’ pick how & where you learn !’ feel the place !’ prove it with real students & programs !’ affirm belonging !’ recap your story !’ invite a visit !’ close with pride.

Act 1 — Hook & invitation

Scene 1 — Opening (includes former Scene 2 copy)

Purpose: Set the emotional tone and lower the pressure.

- Opens on a cinematic hero image
- "Your future doesn't start with choosing a university. It starts with imagining what's possible."
- Campus-life copy follows in the same spot: "Some people arrive… Either way, you're in the right place."

Stakeholder framing: Lead with possibility and reassurance, not rankings or application pressure.

Scene 3 — What pulls you in?

Purpose: First interactive moment — start personalization.

- Floating interest cards: Build things, Help people, Create, Change the world, and more
- Student must pick one to continue

Stakeholder framing: This is the fork in the road. Everything after reflects their curiosity.

Act 2 — Your path takes shape

Scene 4 — Personalized mirror

Confirms their interest with a full-screen transition — headline, color, and imagery shift.

Scene 5 — Path reveal

Three cinematic horizontal-scroll moments tailored to their interest. Proof of life, not a degree list.

Scene 6 — Momentum

One big emotional stat and closing line. Leaves them feeling this could be real for them.

Act 3 — Deeper personalization

Scene 11 — How do you learn best?
Second choice: Hands-on, With people, On my own, Still exploring.

Scene 12 — Where do you see yourself?
Third choice: Tempe, Downtown Phoenix, Polytechnic, West Valley, ASU Online, or Not sure yet.

Act 4 — Place as character

Scene 13 — Campus immersion
Cinematic campus moment — e.g. Tempe: Energy — "The heartbeat of ASU."

Scene 14 — Arizona
Landscape stats: sunny days, Sedona, Grand Canyon, national parks.

Scene 15 — Unexpected places
Horizontal scroll: Antarctica, LA, London, Bermuda, D.C. — global reach.

Act 5 — Proof & belonging

Scene 7 — Student voice
Real student quote and photo — human proof.

Scene 8 — Stat beats
Three full-screen proof points; content adapts to all three choices.

Scene 9 — Real experiences
Named programs: Dreamscape Learn, Venture Devils, MIX Center, etc.

Scene 10 — You belong
Personalized "you belong here" moment before the recap.

Act 6 — Recap & soft conversion

Scene 16 — Future snapshot
Shareable recap card — "Spotify Wrapped" for their ASU path.

Scene 17 — Picture yourself
"See Tempe for yourself" — soft visit CTA with real ASU tour links.

Scene 18 — Next step
Four connection tiles: visit, explore campus, browse degrees, connect with admission.

Scene 19 — Sendoff
"Thank you, Sun Devils." + #FutureSunDevil — warm brand close, not a form wall.

Scene reference

Scene	Name	Interaction	Purpose

1	Opening	Scroll	Tone + campus-life copy
3	Interests	Required choice	Branches entire story
4	Mirror	Scroll	Reflects interest
5	Path reveal	Scroll	3 path moments
6	Momentum	Scroll	Hero stat
11	Learning style	Choice	Refines proof content
12	Campus choice	Choice	Campus immersion + CTAs
13	Campus immersion	Scroll	Campus cinematic
14	Arizona	Scroll	Place as character
15	Unexpected places	Scroll	Global reach
7	Student voice	Scroll	Human proof
8	Stat beats	Scroll	Credibility
9	Real experiences	Scroll	Named programs
10	Belonging	Scroll	Emotional affirmation
16	Future snapshot	Share	Personal recap
17	Picture yourself	CTA	Visit invite
18	Next step	CTA	Four connection paths
19	Sendoff	Scroll	Brand close

Demo tips

- Scene 3 — first interaction; everything after reacts to this
- Scenes 11 & 12 — second and third layers of personalization
- Scene 16 — strong wow moment (shareable recap)
- Scenes 17–18 — soft conversion with real ASU links

Note: Scene 2 is no longer separate — its copy lives inside Scene
